## THE FORGIVENESS OF SINS

Eloquent Sermon of Father O'Kana Last Night.

BOTHORITY AND DUTY OF THE CHURCH

So Long as There Are Sins to Forgive, the Church Must Forgive Them. Father Himmil's Discourse on Penance.

At the morning service at the Chapel of the Sacred Heart yester-day, Rev. Father Himmil delivered a most entertaining and instructive address upon the subject of Pen The address was one mainly

The Reverenced Father spoke of The Reverenced Father spoke of Penance and the Sacrament for the dying and giving admonition as to how the soul should be prepared for the event of all events in every life, how the soul should be prepared for the event of all events in every life, death. He spoke of the Church embodiment of forgiveness in administering to the dying even though to be been received. he be a wanderer from her fold, the greatest benefit she could possibly confer upon his soul. At night the Rev. Father O'Kane,

"Christ came into the world for the very purpose of relieving the suffering and degredation incident to this very state of affairs. He came to save sinful men. And although he was the son of God the haughty seribes and Pharisees doubted his right to forgives in, and to make a test of his power they asked if it was not easier to say 'll hy sins are forgiven thee,' than 'Arise, take up thy bed and walk,' and in order to prove to them his divinity.

A Nice Satary.

Was lies mission to last only the thirty years he was upon earth? Was it not, dear friends, to last for ever? "But, my friends, why am I proving to you the high and authoritative source of the sacrament of penance? It is because we are prone to highly regard, if not to overlook, all the manifold goodness of God and to stay away from his ordained sacraments. The blessed sucrament is that which will strengthen and enlarge our spiritual life and soothe our troubled hearts.

URID ACIC LODGED IN THE BODY.

The Way by Which It Gets Into the System. Some New Scientific Facts of Great Value

and Interest.

"Any man or women who can go through the trying winters and springs of this climate without sufering from rheumatism or neural ic pains of some kind is decidedly ortunate." It was Dr. Hamilton, the ponular physician, who deciated this while talking to some friends at the club. Continuing, he said—"What it is that causes these pains has been a greater mystery to physicians and scientists than almost any other question. Some have declared that they are the results of a severe cold, oth risthat imprudent exposure has caused them, and still others that they arise from blo diposoning.

"In order to obtain, if possible, a corract theely of rheimatism and all the achies and pains which accompany it certain authorities in Washington have taken steps to obtain the views of the obysicians of America upon this sib ect. These views are of a varied instinct but so overwhelming a proportion held to one belief as to leave but little doubt that it is a correct one. This belief, briefly stated, is that uris neid in the blood causes rheumatism, and that it is only by removing this poisonous acid that rheumatism or neurage troubles, in all their terrible forms can be cured. This being true, the important question arise. 'How does the urre acid get into the blood, and how can it best be removed:
